

SAUNAS

The Jacuzzi® HALOONE™ Halotherapy helps you breathe easier

HALOONE™ HALOTHERAPY

CONVERT ANY INFRARED SAUNA INTO A SALT INHALATION ROOM

Installing a Jacuzzi® HALOONE™ Halotherapy Generator turns any infrared sauna into a healing salt cave. The conditions of heat and humidity in our infrared saunas are perfect for salt therapy. The salt aerosol is distributed evenly giving the optimal salt concentration for healing.

SALINE-BASED TECHNOLOGY YIELDS THERAPUTIC MICROSALT MIST

The Jacuzzi® HALOONE™ Halotherapy Generator sprays a pure salt mist that spreads evenly through the infrared cabin. Using mist rather than dry salt, HALOONE™ offers a superior salt therapy solution to reach deep into the lungs and into the small alveoli to improve the condition of peoples' respiratory function.

CONVENIENT SALINE CARTRIDGES

HALOONE™ uses one saline cartridge per session; no measuring or clean-up required. Simply insert the cartridge into the side panel. Experience European salt therapy in the comfort of your own home.

RE-CHARGEABLE BATTERY OPERATION

HALOONE™ Halotherapy is portable and rechargeable. It can be placed in any small room of the house and even works bedside. Charging for an hour allows up to three sessions. The unit plugs into a normal receptacle and has an easy to read battery indicator.

Depth of penetration with conventional salt enriched technology

Depth of penetration with microsalt mist
